OVER-THE-RANGE

Glide & Cook™

By using a rectangular tray that moves side to side rather than a conventional turntable, the Glide & Cook™ system maximizes usable space within the microwave while still cooking your food thoroughly and evenly. Now, even your large casserole dishes (up to 15" long) can fit comfortably, eliminating the need to pause, stir, or move the dish while cooking.

Spacious 2.0 cu.ft. Capacity

Bigger is better. 2.0 cu.ft. capacity gives you the freedom to cook more in your microwave without compromising the quality of your food.

5 Venting Steps

With our variable venting system, removing smoke and odors from your kitchen is a breeze. Choose between 5 venting steps to control the power and speed of the airflow.

LMV2073

CAPACITY	
Oven Capacity	2.0 cu.ft.
FEATURES	
Watts	1100
Exterior Design	Traditional
